

## Meet the Moms

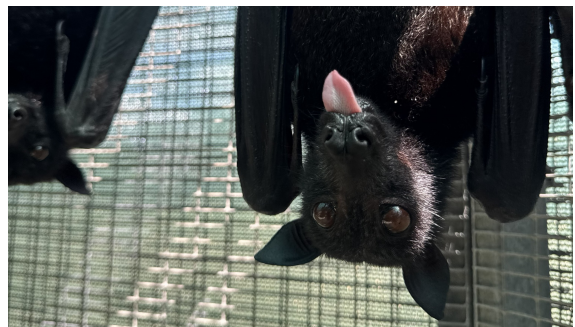

*Fourteen bats. One critical season.*

This spring, fourteen mothers are at the center of one of the most important times of year at Lubee.

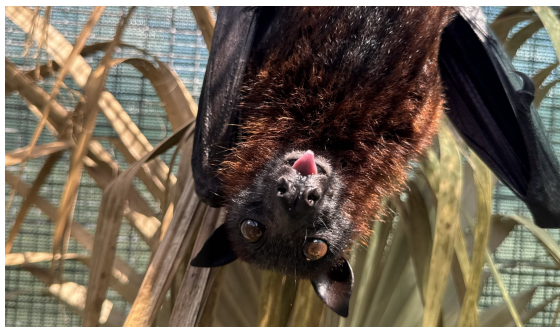

Each one depends on daily care, close monitoring, and a safe environment to support healthy pups.

Willow – Quiet and watchful, ever observant.

Acro – Steady and confident, always exactly where she needs to be.

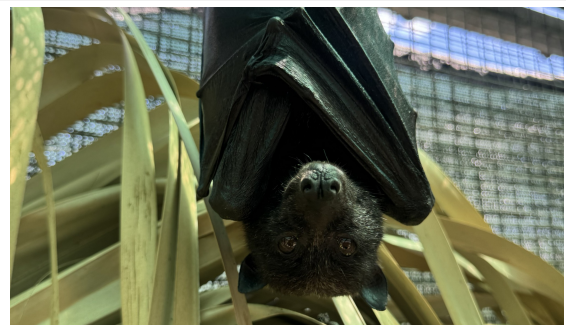

Peanut – Small but mighty, full of personality and never shy about it.

Sprout – Curious and energetic, usually the first to explore something new.

Buffy – Bold and unmistakable, always standing out in a crowd.

Saya – Gentle and observant, taking everything in before making a move.

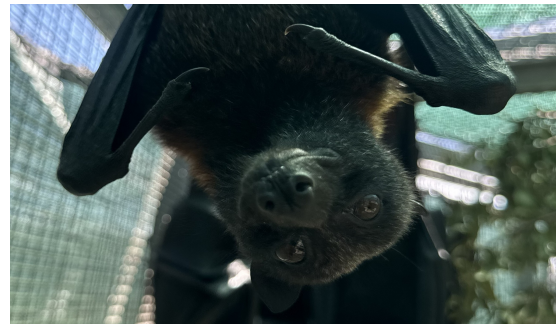

Freya – Confident and composed, carrying herself like she knows she’s in charge.

Chibi – Small, sweet, and impossible not to love.

America – Strong and steady, a quiet presence in the group.

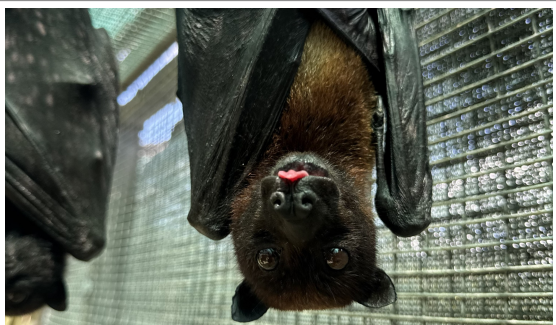

Charm – Effortlessly living up to her name.

Florence – Graceful and calm, bringing balance to the colony.

Brujah – Independent and a little edgy, doing things her own way.

Hufflepuff – Friendly and easygoing, always part of the group.

Stevie – Curious and alert, always tuned in to what’s happening.

Every one of these mothers depends on expert care during this critical season.

Your support helps provide the nutrition, monitoring, and safe spaces they need right now.
